

Finiverse: Finance for Everyone

Finance Finally for Everyone

Presented by: Monica Becerra

The Problem

Financial apps overlook the unique needs of neurodivergent individuals.

One in seven people struggle with money management due to a lack of tailored solutions.

The Solution

Finiverse: Compassionate AI-Powered Financial Guidance for Everyone

Sam, the AI companion, supports users with personalized financial strategies and understanding.

Expenses

Track spending habits to gain financial awareness.

Income

Understand earnings to manage budgets effectively.

Savings & Loan

Monitor debt levels to plan repayments wisely.

Emotion

Check in with feelings before making transactions.

Key Features of Finiverse

01 Emotion Tracking

Users can track their emotions before spending, ensuring mindful financial decisions aligned with their feelings.

02 LLM Recommendations

Machine learning provides tailored spending recommendations without judgment, fostering confidence in managing finances effectively.

03 SOS Button

An SOS button offers immediate support during financial distress, connecting users to resources and assistance quickly.

Market Opportunity

A vast, underserved market of neurodivergent individuals globally awaits financial solutions

With **Over 1 billion neurodivergent people** worldwide, demand for inclusive fintech tools is rapidly growing.

Business Model

Subscription Tiers for Tailored Financial Support and Guidance

Finiverse offers **three subscription tiers** to meet diverse user needs effectively.

Traction

iOS App Developed by a Self-Taught Solo Founder

The Finiverse app, built from scratch by a solo founder, is live on the App Store today.

Founder Monica Becerra

A self-taught developer turning
challenges into opportunities
for growth

Monica is a neurodivergent self-taught
developer who builds with **confidence**
and **resilience**.

Vision and Ask

Seeking support to expand Finiverse and enhance user experience

Our goal is to grow our user base and create impactful financial solutions for neurodivergent communities.
